- Tools & Configuration
- Running the System
- Useful Links & Documentation

Virtual Showroom Demo Video

Future Tasks

1. Additional online payment options, such as Apple Pay and PayPal
2. Implement a long-term storage solution for past events/participants, such as AWS S3 Glacier
3. Create a Admin UI / role to approve deletions for events and perform other administrative tasks
4. Possibly integrate web application into WWPF's current website, replacing Acuity for event management / registration
5. Perform Beta Testing at a heart screening event
